# OUR PRODUCT LINES FOR YOUR BUSINESS

Lucart Professional offers a wide range of products and systems.

Different solutions to satisfy all needs of the professional world

with only one goal: to ensure reliability, performance and sustainability.

## ECONATURAL

EcoNatural is the innovative line in Fiberpack<sup>®</sup>, the raw material obtained from recycled cellulose fibres, which are present in beverage cartons. A range of high quality products and of exceptional performance, featured by light brown colour, derived from the use of unbleached cellulose fibres.

All EcoNatural products are certified EU Ecolabel and FSC<sup>®</sup> Recycled.

## ECO

Eco is the line made from 100% recycled and regenerated fibres. A wide range of products combining quality and respect for the environment, to satisfy all needs.

All Eco products are certified EU Ecolabel.

EcoNatural products are certified FSC<sup>®</sup> Recycled that identifies products made with recycled paper. On the left is an example of a product label that can be found on all EcoNatural packaging. FSC<sup>®</sup> is a non-governmental international organisation which promotes the responsible use of forestry resources.

EcoNatural and Eco products are certified EU Ecolabel, the ecological quality label that guarantees the respect of severe criteria for the protection of the environment required at an European level: low water and air pollution, low greenhouse gas emissions and electricity use.

## AIRTECH

AirTech is the line produced with the exclusive airlaid technology, which uses air in the manufacturing process of the pure cellulose fibres. The products therefore develop extraordinary characteristics of absorbency and strength creating an unequaled performance.

## STRONG

Strong is the full line of products made from 100% virgin cellulose fibres, in compliance with the environmental sustainability criteria foreseen by the PEFC™ forest certification. The solution which combines high performance results and excellent quality.

## EASY

Easy is the basic line made with 100% recycled fibres. It's the complete solution which represents the perfect balance between quality and excellent value for money.

Strong products are certified PEFC™, the forest certification that guarantees the correct environmental management of forests from which cellulose comes.

THE PROJECTS:  
INNOVATION BECOMES A PRODUCT.

- 
- > ECONATURAL
  - > IDENTITY
  - > AIRTECH
  - > L-ONE

Lucart Professional turns technological solutions into innovative products, combining the highest levels of performance, hygiene and sustainability.

The continued Research and Development process enables Lucart Professional to offer its customers a wide choice of products and dispensing systems.

A complete range that meets all professional requirements.

# ECONATURAL

## The future of sustainability

### ▶ ECO TECHNOLOGY

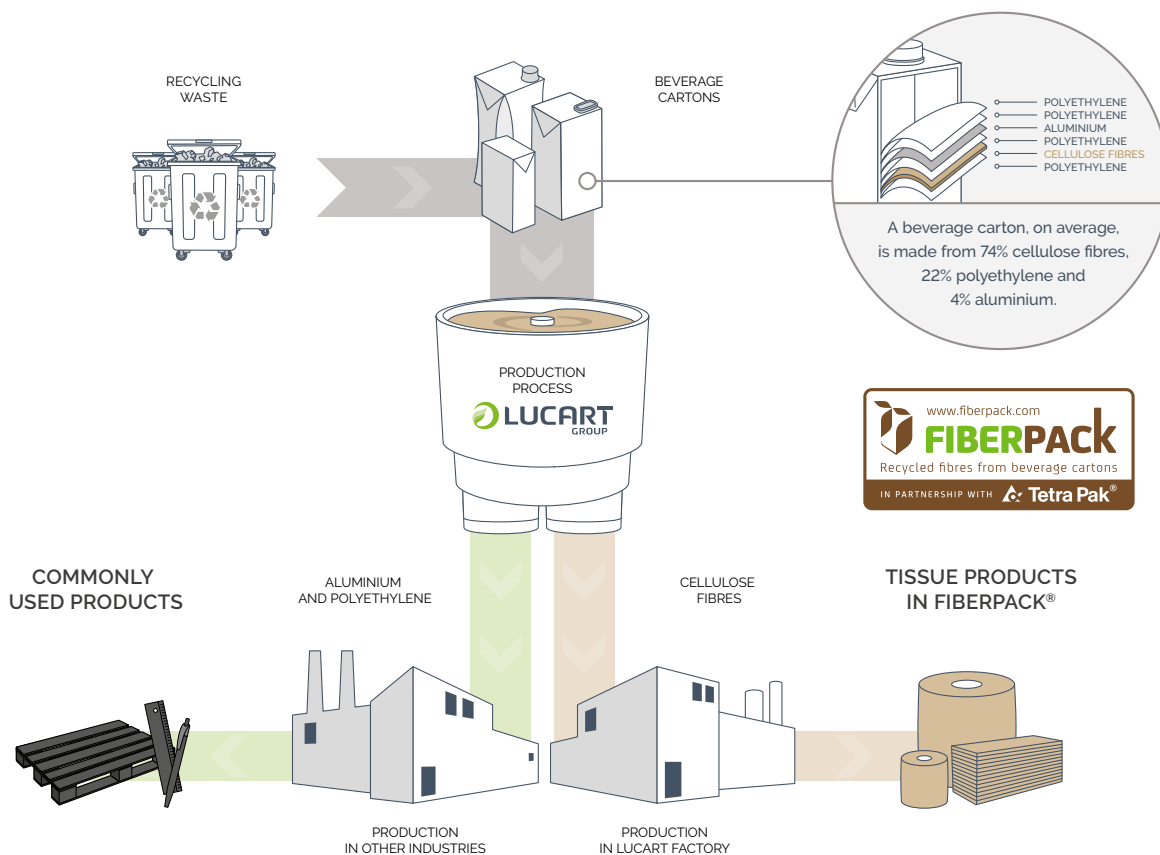

#### THE EVOLUTION OF ECOLOGICAL PAPER

EcoNatural is the line of products made from Fiberpack®, the raw material obtained from recycled cellulose fibres present in beverage cartons. Fiberpack® is an environmental and technological break-through which comes from a collaboration between Lucart Group and Tetra Pak®.

In addition to cellulose fibres, beverage cartons contain polyethylene and aluminium.

Lucart Group production process separates cellulose fibres from polyethylene and aluminium, recovered in other manufacturing activities, through a physical-mechanical action without the use of harmful substances for both man and the environment.

#### A NEW LIFE FOR BEVERAGE CARTONS

### ▶ ECO QUALITY

#### A SUPERIOR PERFORMANCE

An exceptional performance paper is made from the Fiberpack® innovative production process.

The cellulose fibres present in beverage cartons are of a quality comparable with virgin cellulose and therefore able to provide the finished products with excellent strength and absorbency.

**ECO SUSTAINABILITY**  
**THE RESPECT FOR THE ENVIRONMENT**

EcoNatural products positively help the environment:

- by giving life to materials which otherwise would be lost in waste;
- by contributing to the reduction of CO<sub>2</sub> emissions in the atmosphere;
- by preventing the cutting of trees.

Considering the tonnes of post-consumer beverage cartons purchased to produce Fiberpack® paper, in 2014 Lucart Group helped to:

Recover  
 995 million  
 beverage cartons\*

Prevent  
 the formation of  
 68 356 m<sup>3</sup> of waste\*\*

Save  
 164 175 averaged  
 sized trees\*\*\*

Avoid  
 28 715 tonnes  
 of CO<sub>2</sub> emissions\*\*\*\*

Lucart Environmental Savings Calculator is an innovative tool that enhances the ecological contribution of every EcoNatural product purchased. Once the EcoNatural products have been entered into the calculator, the system generates a certificate attesting the ecological contribution of the EcoNatural products chosen.

# IDENTITY

## Style for efficiency

Whatever the professional sector, whatever the style of the premises, Identity is the perfect answer.

A comprehensive range of solutions for bathrooms.

Higher level functionality where efficiency joins cost control.

A contemporary design that makes the style of any room unique.

\*Result of a market research conducted by Research Factory on a representative sample, in comparison with a traditional Lucart Jumbo dispenser and to a traditional Lucart Professional dispenser of folded handtowels. The research was conducted according to ASSIRM regulations in compliance with ISO 20252 standard. Milan 2015.

**-45%**  
CONSUMPTION  
REDUCTION\*

## ➤ IDENTITY TOILET

The innovative idea for bathroom, many advantages in a unique design:

- the first automatic cutting dispenser, unbeatable in reducing consumption
- guaranteed performance, paper always available
- compatible with Lucart Professional range of certified environmentally-friendly paper

**-45% PAPER CONSUMPTION**

The automatic cutting system, applied for the first time to toilet paper, invites the user to get one tear-off sheet at a time, enhancing lower consumption, refill frequency reduction and storage space.

**OPEN PAPER DISPENSING**

The paper is dispensed already open and ready for use by the dispenser for the user's convenience. 900 single-use, 22.5 cm-long sheets.

**PUSH-BAR**

The push-bar, with silver-ion based antibacterial protection, simplifies refilling and helps in the event of insufficient paper dispensing.

**AN ENVIRONMENTALLY FRIENDLY SYSTEM**

The Toilet dispenser of the Identity range is compatible with the dedicated EcoNatural, Eco and Strong toilet paper. Controlled dispensing and environmentally-friendly paper: an ideal and sustainable synergy.

**CONSUMPTION DISPLAY**

The playfully transparent design not only makes the dispenser unique and innovative therefore allows to conveniently check the residual amount of product.

**VERSATILE OPENING SYSTEM**

The key housing, in controlled use settings, may easily be replaced with a button to make refill operations faster.

## ► IDENTITY HANDS

Hygiene, control, efficiency, everything your customers were looking for:

- consumption and waste reduction thanks to controlled paper dispensing
- compatible with Lucart Professional range of certified environmentally-friendly paper
- extreme ease and speed in replacing the paper roll thanks to the *FAST REFILL* system

### -45% PAPER CONSUMPTION

The automatic cutting system combined with the quality of Lucart Professional certified ecological paper saves the user 45% in paper. An advantage that translates into lower costs and reduction of the frequency of refilling and of the storage area.

### COSTS UNDER CONTROL

The Hands dispenser of the Identity line is designed for single sheet dispensing, as only the required amount of product is dispensed. The length of the individual sheet of 28 cm has been set to guarantee optimal drying with just two tear-off sheets.

### FAST REFILL SYSTEM

The exclusive *FAST REFILL* system is the combination of flexible arms and push-bar and significantly speeds up the refill operation. Furthermore the push-bar features silver-ion-based antibacterial protection.

### VERSATILE OPENING SYSTEM

The key housing, in controlled use settings, may easily be replaced with a button to make refill operations faster.

### AN ENVIRONMENTALLY FRIENDLY SYSTEM

The Hands dispenser of the Identity range is compatible with the EcoNatural, Eco, Strong and Strong Blue handtowels. Controlled dispensing and environmentally-friendly paper: an ideal and sustainable synergy.

### HYGIENE GUARANTEED

Hands drying with single-use paper handtowel is the most hygienic solution on the market: no spread of bacteria compared to other drying systems\*.

\* Study of the University of Westminster commissioned by ETS

## ► IDENTITY FOAM SOAP AND SPRAY SOAP

Hand soap dispensers, ideal for premium and high-use settings, as they offer both:

- maximum performance and minimum consumption thanks to controlled dispensing
- dispensing EU Ecolabel certified soaps

Dispensing foam soap offers to the user a pleasant feeling of comfort and softness in premises where quality and well-being take pride of place.

Dispensing up to 4,000 doses, it is the ideal solution for high-use premises, such as airports, service stations and catering areas.

## ➤ IDENTITY NOWATER CLEANER

Dispenser of liquid detergent for hands ideal for environments risking bacterial contamination such as healthcare and food preparation.

### MAXIMUM HYGIENE

It reduces the risk of spreading germs and cross-contamination of bacteria.

### GENTLE ON THE SKIN

Enriched with glycerine and without containing alcohol, the liquid detergent for hands has been dermatologically tested.

### NEUTRAL FRAGRANCE

It can be placed in any premise.

### NOWATER CLEANER HAS BEEN TESTED IN COMPLIANCE WITH:

- **EN 1040:2006 Chemical disinfectants and antiseptics.**  
Quantitative suspension test for the evaluation of basic bactericidal activity of chemical disinfectants and antiseptics.

---

- **EN 1500:2000 Chemical disinfectants and antiseptics.**  
Hygienic handrub.

---

- **EN 14476+A1 Chemical disinfectants and antiseptics.**  
Quantitative suspension test for the evaluation of virucidal activity in the medical area.

---

- **EN 1650:2008 Chemical disinfectants and antiseptics.**  
Quantitative suspension test for the evaluation of fungicidal or yeasticidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas.

---

- **EN 1275:2006 Chemical disinfectants and antiseptics.**  
Quantitative suspension test for the evaluation of basic fungicidal or basic yeasticidal activity of chemical disinfectants and antiseptics.

# AIRTECH

The airlaid which enhances the performance.

## ▶ AN EXCELLENT QUALITY

AirTech is the airlaid paper line with exceptional performances.

The exclusive airlaid technology, using air instead of water in the production process of pure cellulose fibres, together with the special three dimensional weave, provide the AirTech products with an extraordinary absorbency capacity and strength, even when wet.

### ▶ Absorbency | Comparison of AirTech versus T.A.D. Tissue and standard Tissue.\*

\* Analysis carried out by comparing an equal size sheet of AirTech Select, T.A.D. Tissue and standard Tissue (average grammage). \*\* Grams of water absorbed per sheet.

### ▶ Wet resistance | Comparison of AirTech versus T.A.D. Tissue and standard Tissue.\*

\* Analysis carried out by comparing an equal size sheet of AirTech Select, T.A.D. Tissue and standard Tissue (average grammage). \*\* Measurement of strength required to tear a wet sheet.

### ▶ AN UNBEATABLE VERSATILITY

The AirTech products have the same consistency and strength of a cloth, the versatility and the hygiene of paper, the practicality and absorbency of a sponge.

### ▶ AN IDEAL GRAMMAGE WEIGHT FOR EVERY AREA

The AirTech products are made with different grammage weights in order to ensure maximum performance for the consumer:

- AirTech Power is ideal for heavy workloads where excellent absorbency and strength are required;
- AirTech Select is recommended for all jobs which require a high performance;
- AirTech (50 gr/m<sup>2</sup>) is suggested for general use.

# L-ONE

The single sheet dispensing systems.  
Solutions for all work areas.

The L-ONE line combines the advantage of the single sheet dispensing system with the quality of Lucart Professional products.

The L-ONE systems guarantee hygiene and consumption reduction compared to traditional systems.

- L-ONE MINI, the solution for washroom and kitchen areas.
- L-ONE MAXI, the answer to the workplace area.
- L-ONE TABLE, TABLETOP and COUNTER, systems for the food area.

## ► L-ONE MINI

Lucart Professional L-ONE MINI dispenser is a versatile and high performing system designed to provide toilet paper as well as kitchen wipers.

The single sheet dispensing system optimises paper consumption. L-ONE MINI guarantees the maximum hygiene as users touch the required sheet only.

The system, dispensing Strong blue paper, is ideal for using in the food preparation area as the blue colour is easily visible and identifiable in food preparation.

The single-sheet dispensing system ensures minimal waste.

## ▶ L-ONE MAXI

The Lucart Professional L-ONE MAXI dispenser offers multipurpose wipers with an internal extraction system.

It is ideal for medium to large surface areas.

The single sheet dispensing system assures the consumption control of paper by offering contact with only the individual sheet used.

## ► L-ONE TABLETOP and L-ONE COUNTER

The dispensers have a high autonomy ideal for public places with large crowds:

- high capacity levels;
- ideal for canteens, self service restaurants with large crowds;
- simple consumption control thanks to the transparent design;
- advertisements may be placed on the front of the dispenser;
- the dispenser may also be fixed to the wall in rooms of a limited size.

## ► L-ONE TABLE

The perfect solution for dispensing napkins in small spaces. Perfect to place on bar counters, tables, in pubs or fast food outlets; practical and always available to the customer; ideal for fast consumption in rooms with limited space.

# WASHROOM AREA

Lucart Professional NO CLOG.

## NO CLOG. NO PROBLEM.

- **PROBLEM** Sometimes the used paper, ends up in the toilet and therefore risks clogging the related drains.
- **SOLUTION** Lucart Professional No Clog handtowels quickly dissolve in the water, therefore avoiding the risk of creating clogging problems of plumbing pipes.
- **BENEFITS**
  - Eliminations of clogging risks.
  - Eliminations of maintenance costs and inconvenience of any blockages.
  - Customer satisfaction thanks to absorbent of the handtowels.

# FATO

The complete range of products for the table.

Fato is the Lucart signature of quality in the Ho.re.ca. sector.

A wide range of napkins, tablecloths, placemats, table runners and cutlery-holders which allow restaurateurs to furnish every venue in a practical and colourful way or alternatively in an elegant and stylish way.

The expertise of Fato along with the matching table prints are available for the client to personalize and therefore create a unique style for their own personal venues.

To discover the complete range of Fato products go to [www.fato.com](http://www.fato.com) or ask for a catalogue.

# FOOD AREA

## AIRLAID

The Fato coordinates of airlaid are the response to the needs of quality and convenience in the restaurant world.

Products characterised by precious softness, similar to that of woven, which allow you to create an elegant and refined atmosphere in venues without the need to worry about creasing and washing.

## ➤ TISSUE & CO.

A wide variation of patterns and a striking palette of colours makeup the unique Fato products and allow the restaurateur to arrange the design of the table and to best interpret their individual style and context of use.

## ➤ FATO NATURAL

The solution for eco-trendy venues who want to be distinguished for respecting the environment, offering their customers not only an environmentally friendly product, but also a product which is aesthetically appealing. The light brown colour, typical of the colour of natural wood is minimal and elegant and works well with the decor of individual rooms.

Fato Natural is made in Fiberpack®, the raw material obtained recycling cellulose fibres present in beverage cartons.
